Subject Index

- Abstracting, of medical records, pragmatic strategies for reliability enhancement, 50
- Accuracy, paper- vs. web-based data collection and management system, 182
- Acute care setting, pressure ulcer risk prediction with modified Braden and Norton scales in Mainland China, 122
- Acute coronary syndromes, patient cues in predicting emergency department nurses' triage decisions for, 82
- Adolescents, runaway, in a shelter in South Korea, effect of cognitive-behavioral group therapy on self-esteem, depression and self-efficacy of, 160
- Advanced practice nurses
 - development in South Korea, 226
 - commentary on, 227
- African Americans
 - mealtime behaviors of fathers and their toddlers, 106
 - women with type 2 diabetes, symptom-focused management for, 213
- Anxiety, in women undergoing chemotherapy for breast cancer, role of education in self-management of, 138
- Applied Nursing Research*, authorship guidelines, 129
- Asian Americans, hepatitis B prevalence among Pacific Islanders in Rocky Mountain area, 2
- Audiotapes, on self-care behaviors, role in managing chemotherapy-induced fatigue, anxiety and sleep orders in women with breast cancer, 138
- Australia, Delphi study of district nursing research priorities in, 36
- Authorship guidelines, for *Applied Nursing Research*, 129
- Behavior
 - of African-American fathers and their toddlers during mealtime, 106
 - of children exposed to intimate partner violence, before and 1 year after treatment of abused mother, 7
 - disruptive, of elderly nursing home residents in Taiwan, psychoeducational program for nursing staff's management of, 205
- Beliefs, of nurses about family presence during resuscitation, 192
- Booster intervention, effects on health, behavioral and clinical physical status outcomes after cardiac rehabilitation, 59
- Bottle-feeding, influence of experience on readiness and outcome, role of clinical coordinator, 102
- Braden scale, modified, pressure ulcer risk prediction in acute care hospitals in Mainland China, 122
- Breast cancer, role of education in self-management of chemotherapy-induced fatigue, anxiety and sleep disorders in women with, 138
- Cardiac rehabilitation, follow-up booster sessions, effectiveness in improving physical status, 59
- Cardiopulmonary resuscitation, nurses' beliefs about family presence during, 192
- Care process, for hospitalized elderly relatives by family caregivers, 97
- Care program, via telemedicine, in elderly diabetic people, community model for, 77
- Caregivers, family, identifying care process themes in caring for hospitalized elderly relatives, 97
- Chemotherapy, for breast cancer, role of education in self-managing fatigue, anxiety and sleep disorders in women undergoing, 138
- Child, sick, individualized motivational intervention on smoking cessation for parents of, 178
- Child behavior, after exposure to intimate partner violence, before and 1 year after treatment of abused mother, 7
- China, Mainland, pressure ulcer risk prediction with modified Braden and Norton scales in acute care hospitals, 122
- Clinical coordination, of research on influence of bottle-feeding experience on readiness and outcome, 102
- Clinical practice, making changes through collaboration of nursing students and practicing nurses, 229
- Cognitive-behavioral group therapy, effect on self-esteem, depression and self-efficacy of runaway adolescents in a shelter in South Korea, 160

- Collaboration, of nursing students and practicing nurses, making changes in clinical practice through, 229
- Commentary
on development of advanced practice nurses in South Korea, 227
on shared decision making and nursing informatics in Norway, 72
- Community-based housing facilities, acquisition of medical services for individuals with mental retardation in, 155
- Community model, for care in elderly diabetic people, via telemedicine, 77
- Coordination, of clinical research on influence of bottle-feeding experience on readiness and outcome, 102
- Cost-utility analysis, and patient preferences, 74
- Costs, paper- vs. web-based data collection and management system, 182
- Counseling, symptom-focused, for African American women with type 2 diabetes, 213
- Data collection and management system, paper- vs. web-based, 182
- Decision making
role of patient cues in prediction of nurses' triage for acute coronary syndromes, 82
shared, and nursing informatics research, in Norway, 70
commentary on, 72
- Delphi study, of district nursing research priorities in Australia, 36
- Depression, of runaway adolescents in a shelter in South Korea, effect of cognitive-behavioral group therapy, 160
- Diabetes mellitus
in elderly people, community model for care via telemedicine, 77
type 2, symptom-focused management for African-American women with, 213
- Diet, low-fat, and internet/video exercise intervention, in middle-school students, 13
- Disruptive behavior, of elderly nursing home residents in Taiwan, psychoeducational program for nursing staff's management of, 205
- District nursing, research priorities in Australia, 36
- Domestic violence, exposure to, effects on children's behavior before and 1 year after treatment of their mother, 7
- Driving strategies, of older adults with macular degeneration, risk assessment of, 110
- Editorials
expanding of international research, 69
scientific necessity of peer review, 191
self-citations and other reference matters, 1
- Education
nursing, in Lebanon, 63
patient, role in managing chemotherapy-induced fatigue, anxiety and sleep disorders in women with breast cancer, 138
- Efficiency, paper- vs. web-based data collection and management system, 182
- Elderly persons
with diabetes, community model for care via telemedicine, 77
hospitalized, identifying family care process themes in caring for, 97
nursing home residents with problematic behaviors, psychoeducational program for nursing staff in management of, 205
- Emergency department, role of patient cues in prediction of nurses' triage decisions for acute coronary syndromes, 82
- Emotional comfort, impact of hospital environment and patients' perceptions of personal control on, 22
- Evidence-based nursing, making changes in clinical practice through collaboration of nursing students and practicing nurses, 229
- Exercise program, internet/video-delivered, and low-fat diet intervention, in middle-school students, 13
- Family
identifying care process themes in caring for hospitalized elderly relatives, 97
presence during resuscitation, nurses' beliefs, 192
- Family systems, longitudinal qualitative study of, 44
- Fathers, mealtime behavior with their toddlers, study among African-Americans, 106
- Fatigue, in women undergoing chemotherapy for breast cancer, role of education in self-management of, 138
- Follow-up care, after cardiac rehabilitation, effects on health, behavioral and clinical physical status, 59
- Health promotion, via internet/video exercise and low-fat diet intervention, in middle-school students, 13
- Hepatitis B, prevalence among Asian American Pacific Islanders in Rocky Mountain area, 2
- HIV, symptom management issues in lipodystrophy and quality of life among patients with, 55
- Home health care
nursing research priorities for, 221
quality of pressure ulcer prediction and prevention in, 148
- Hospital environment, impact on patients' perceptions of personal control and emotional comfort, 22
- Hospitalization, of elderly relatives, identifying family care process themes in caring for, 97

- Housing facilities, community-based, acquisition of medical services for individuals with mental retardation in, 155
- Human immunodeficiency virus infection. *See* HIV
- Individualized motivational intervention, on smoking cessation for parents of sick children, 178
- Inpatient psychiatric unit, with young adults and mentally retarded patients, risk factors for violence, 117
- Internet/video-delivered exercise program, and low-fat diet intervention, in middle-school students, 13
- Interrater reliability, of data abstracted from medical records, enhancement using pragmatic strategies, 50
- Intimate partner violence, effect on children's behavior before and 1 year after treatment of their mother, 7
- Lebanon, nursing profession and education in, 63
- Lipodystrophy, and quality of life, symptom management issues in HIV patients, 55
- Longitudinal study, qualitative, of family systems, 44
- Low-fat diet, and internet/video exercise intervention, in middle-school students, 13
- Macular degeneration, risk assessment of driving strategies used by older adults with, 110
- Mainland China, pressure ulcer risk prediction with modified Braden and Norton scales in acute care hospitals, 122
- Mealtime behavior, of African-American fathers and their toddlers, 106
- Medical records, data abstraction, pragmatic strategies for reliability enhancement, 50
- Medical services, acquisition of, for individuals with mental retardation in community-based housing facilities, 155
- Medications, adherence to, improvement through individualized memory strategies, 199
- Memory strategies, individualization, to improve medication adherence, 199
- Mental retardation
acquisition of medical services in community-based housing facilities for individuals with, 155
risk factors for violence on inpatient unit with young adult psychiatric patients and those with, 117
- Mortality rate, in a longitudinal palliative care study, 167
- Motivational intervention, individualized, on smoking cessation for parents of sick children, 178
- National Health Information Infrastructure, and nursing research, 65
- Neurological impairment, role of elevated sacral skin temperature in pressure ulcer development in Thai patients with, 29
- Northeastern Pennsylvania, nurse staffing levels and quality of care in nursing homes, 130
- Norton scale, modified, pressure ulcer risk prediction in acute care hospitals in Mainland China, 122
- Norway, shared decision making and nursing informatics research in, 70
commentary on, 72
- Nurse staffing, and quality of care, in Northeastern Pennsylvania nursing homes, 130
- Nurses
beliefs about family presence during resuscitation, 192
and nursing students, making changes in clinical practice through collaboration, 229
- Nursing education, in Lebanon, 63
- Nursing homes
elderly residents with problematic behaviors, psychoeducational program for nursing staff in management of, 205
Northeastern Pennsylvania, nurse staffing levels and quality of care, 130
- Nursing informatics research, and shared decision making, in Norway, 70
commentary on, 72
- Nursing profession, in Lebanon, 63
- Nursing research
Delphi study of research priorities in Australia, 36
and the National Health Information Infrastructure, 65
priorities for home health care, 221
- Nursing staff, managing problematic behaviors of elderly nursing home residents through psychoeducational program, 205
- Nursing students, and practicing nurses, making changes in clinical practice through collaboration, 229
- Obesity, childhood, effectiveness of Internet/video-delivered exercise program and low-fat diet intervention, in middle-school students, 13
- Older adults, with macular degeneration, risk assessment of driving strategies used by, 110
- Outcomes, of follow-up booster sessions after cardiac rehabilitation, 59
- Pacific Islanders, hepatitis B prevalence among, in Rocky Mountain area, 2
- Pain management, self-treatment, patients' choices for, 90
- Palliative care study, longitudinal, recruitment and retention in, 167
- Paper-based data collection and management, comparison with web-based, 182
- Parents, of sick children, individualized motivational intervention on smoking cessation for, 178
- Patient case mix, young adults and mentally retarded patients, risk factors for violence on inpatient psychiatric unit, 117
- Patient compliance, to medication, improvement through individualized memory strategies, 199
- Patient cues, in predicting emergency department nurses' triage decisions for acute coronary syndromes, 82

- Patient preference, and cost-utility analysis, 74
- Patients, choices for self-treatment of pain, 90
- Peer review, scientific necessity of, 191
- Pennsylvania, Northeastern, nurse staffing levels and quality of care in nursing homes, 130
- Personal control, patients' perceptions of, impact of hospital environment on, 22
- Physical status, after cardiac rehabilitation, effectiveness of follow-up booster sessions, 59
- Preference measures, of patients, and cost-utility analysis, 74
- Pressure ulcer
- elevated sacral skin temperature as risk factor, in hospitalized neurologically impaired Thai patients, 29
 - quality of prediction and prevention in home health care, 148
 - risk prediction with modified Braden and Norton scales in acute care hospitals in Mainland China, 122
- Prevalence
- hepatitis B, among Asian American Pacific Islanders in Rocky Mountain area, 2
 - lipodystrophy-related symptoms, in HIV patients, 55
- Psychoeducational program, for nursing staff managing problematic behaviors of elderly nursing home residents in Taiwan, 205
- Publication, authorship guidelines for *Applied Nursing Research*, 129
- Quality of care, and nurse staffing levels, in Northeastern Pennsylvania nursing homes, 130
- Quality of life, and lipodystrophy, symptom management issues in HIV patients, 55
- Recruitment, and retention, in longitudinal palliative care study, 167
- Reliability, of data abstracted from medical records, enhancement using pragmatic strategies, 50
- Research
- acquisition of medical services for individuals with mental retardation in community-based housing facilities, 155
 - behavior of children exposed to intimate partner violence, before and 1 year after treatment of abused mother, 7
 - community model for care via telemedicine in elderly diabetic people, 77
 - effect of cognitive-behavioral group therapy on self-esteem, depression and self-efficacy of runaway adolescents in a shelter in South Korea, 160
 - effectiveness of follow-up booster sessions after cardiac rehabilitation on physical status, 59
 - elevated sacral skin temperature as risk factor for pressure ulcer development in neurologically impaired Thai patients, 29
- Research (continued)
- hepatitis B prevalence, among Asian American Pacific Islanders in Rocky Mountain area, 2
 - identifying family care process themes in caring for hospitalized elderly relatives, 97
 - impact of hospital environment on patients' perceptions of personal control and emotional comfort, 22
 - individualized motivational intervention on smoking cessation for parents of sick children, 178
 - individualizing memory strategies to improve medication adherence, 199
 - on influence of bottle-feeding experience on readiness and outcome, clinical coordination of, 102
 - international, expanding of, 69
 - internet/video exercise and low-fat diet intervention, in middle-school students, 13
 - longitudinal qualitative family systems study, 44
 - mealtime behaviors of African-American fathers and their toddlers, 106
 - nurses' beliefs about family presence during resuscitation, 192
 - nursing informatics, and shared decision making, in Norway, 70
 - commentary on, 72
 - paper- vs. web-based data collection and management, 182
 - patient cues in predicting emergency department nurses' triage decisions for acute coronary syndromes, 82
 - patients' choices for self-treatment of pain, 90
 - pragmatic strategies for reliability enhancement of data abstracted from medical records, 50
 - prediction of pressure ulcer risk with modified Braden and Norton scales in acute care hospitals in Mainland China, 122
 - priorities for district nursing in Australia, 36
 - priorities for home health care nursing, 221
 - psychoeducational program for nursing staff managing problematic behaviors of elderly nursing home residents in Taiwan, 205
 - quality of care and nurse staffing levels in Northeastern Pennsylvania nursing homes, 130
 - quality of pressure ulcer prediction and prevention in home health care, 148
 - recruitment and retention in longitudinal palliative care study, 167
 - risk assessment of driving strategies used by older adults with macular degeneration, 110
 - risk factors for violence on inpatient psychiatric unit with young adults and mentally retarded patients, 117
 - role of education in self-managing chemotherapy-induced fatigue, anxiety and sleep disorders in women with breast cancer, 138
 - scientific necessity of peer review, 191
 - symptom-focused management for African-American women with type 2 diabetes, 213

Research (continued)

- symptom management issues in lipodystrophy and quality of life of HIV patients, 55
- Resuscitation, nurses' beliefs about family presence during, 192
- Retention, and recruitment, in longitudinal palliative care study, 167
- Return-on-investment models, 186
- Risk assessment
 - of driving strategies used by older adults with macular degeneration, 110
 - of pressure ulcer, prediction with modified Braden and Norton scales in acute care hospitals in Mainland China, 122
- Risk factors
 - elevated sacral skin temperature as, for pressure ulcer development in neurologically impaired Thai patients, 29
 - for violence on inpatient psychiatric unit with young adults and mentally retarded patients, 117
- Runaway adolescents, in a shelter in South Korea, effect of cognitive-behavioral group therapy on self-esteem, depression and self-efficacy of, 160
- Sacrum, skin temperature, as risk factor for pressure ulcer development in neurologically impaired Thai patients, 29
- Self-care behavior, in managing chemotherapy-induced fatigue, anxiety and sleep orders in women with breast cancer, 138
- Self-efficacy, of runaway adolescents in a shelter in South Korea, effect of cognitive-behavioral group therapy, 160
- Self-esteem, of runaway adolescents in a shelter in South Korea, effect of cognitive-behavioral group therapy, 160
- Self-treatment, of pain, patients' choices for, 90
- Shared decision making, and nursing informatics research, in Norway, 70
 - commentary on, 72
- Shelter, in South Korea, effect of cognitive-behavioral group therapy on self-esteem, depression and self-efficacy of runaway adolescents in, 160
- Skin temperature, sacral, as risk factor for pressure ulcer development in neurologically impaired Thai patients, 29
- Sleep disorders, in women undergoing chemotherapy for breast cancer, role of education in self-management of, 138
- Smoking cessation, for parents of sick children, individualized motivational intervention, 178
- South Korea
 - development of advanced practice nurses, 226
 - commentary on, 227

South Korea (continued)

- effect of cognitive-behavioral group therapy on self-esteem, depression and self-efficacy of runaway adolescents in, 160
- Students
- middle-school, internet/video exercise and low-fat diet intervention in, 13
 - nursing, and practicing nurses, making changes in clinical practice through collaboration, 229
- Symptom management
- for African American women with type 2 diabetes, 213
 - lipodystrophy-related symptoms in persons with HIV, 55
- Taiwan, psychoeducational program for nursing staff managing problematic behaviors of elderly nursing home residents in, 205
- Teaching, symptom-focused, for African American women with type 2 diabetes, 213
- Telemedicine, community model for care in elderly diabetic people, 77
- Thailand, neurologically impaired patients, elevated sacral skin temperature as risk factor for pressure ulcer development, 29
- Toddlers, mealtime behavior with their fathers, study among African-Americans, 106
- Triage, decisions of emergency department nurses, for acute coronary syndromes, role of patient cues in prediction of, 82
- United States, hepatitis B prevalence among Asian American Pacific Islanders in Rocky Mountain area, 2
- Video/Internet-delivered exercise program, and low-fat diet intervention, in middle-school students, 13
- Violence
- intimate partner, effect on children's behavior before and 1 year after treatment of their mother, 7
 - risk factors for, on inpatient psychiatric unit with young adults and mentally retarded patients, 117
- Web-based data collection and management, comparison with paper-based, 182
- Women
- African-American with type 2 diabetes, symptom-focused management for, 213
 - undergoing chemotherapy for breast cancer, role of education in self-managing fatigue, anxiety and sleep disorders in, 138
- Young adult psychiatric patients, and mentally retarded patients, risk factors for violence on inpatient unit, 117
